TOTAL CONTROL.
ULTIMATE IN SAFETY.

PREVENT ACCIDENTS AT YOUR RAIL CROSSINGS.

MULTIPLE GATE STYLES

MULTI GATES MULTI USERS

WIFI & CELLULAR

DESKTOP OR MOBILE

Total control of your railroad crossings in your facility to ensure the highest level of safety.

Ensuring your facility is safe isn't complete without providing reliable railroad crossing barricades.

SafeTrack is the most comprehensive, and easiest to use railroad crossing barricade systems available today. The fully integrated solution provides complete peace of mind. With features like, total gate management for your entire facility, from 1 - 100 gates. Desktop or Mobile app control with multiple users and multi-permission levels. Enabling various people to have visibility and/or control over barricade operation at all times.

Available train sensors provide fully automatic control of your barricades. Multiple power options are also available, including solar, for remote applications.
