Modular, 20-foot Spill Containment Pans

Prevent costly cleanup and regulatory fines from railcar spills and chemical spills. Ultra-Track Pans have been designed to provide railroad spill containment at industrial rail sidings and locomotive maintenance facilities.

Track pans are available in virtually any length. Ultra-Track Pans may be used to collect small spills and leaks or to capture and channel off significant spills caused by defective equipment or a major overflow.

Features

- Easy installation - minimal site preparation (no excavation) required.
- Constructed with high strength, non-porous, corrosion resistant fiberglass.
- Low profile: 20' long x 4-7/8" high
- Pandrol compatible
- Unique storm water feature designed to eliminate "pooling"
- Low cost installation without the need of heavy equipment

POLYETHYLENE GRATING PACKAGE
AVAILABLE FOR SAFER FOOT TRAFFIC.

CAPTURE HAZARDOUS SPILLS FROM RAILROAD TANKER CARS

RAILROAD SPILL CONTAINMENT

Additional Features

- Rail side gasket sealing system – prevents spills from leaking between Track Pans and rails.
- Ultra-Track Pans may be used independently, or connected to other Pans via an optional drainage manifold.
- Drainage manifold comes standard with clean out port to allow for removal of sludge blockages, etc. Installation requires half the ballast excavation of others ensuring tie foundation integrity.

Available flow through technology increases containment capacity for larger spills while minimizing cleanup of smaller spills.

Part#	Description	Dimensions in. (mm)	Containment Capacity gal. (L)	Weight lbs. (kg)
7200	Center Pan	255x 57¼ x 4½ (6,477 x 1,448 x 144)	209 (791) with grating: 191 (723)	177 (80)
7210	Side Pan	255 x 36 x 4½ (6,477 x 914 x 144)	98 (371) with grating: 89 (377)	100 (45)

Options: **7220** - Drain Manifold Center & Sides | **7223** - Drain Manifold Center Only | **7225** - Rail Gasket | **0420** - Grating
